GUAYMAS (Mexico), July 23.—Advices from the Yaqui river report a pitched battle between Mexicon troops and Yaquis yesterday. Col. Lorenzo Torres, with 300 men, while conveying a train of provisions from Metano to Torrin, met the Indians, who numbered 1200, about one and a half leagues from Metano. In the battle which ensued and lasted three hours, the Indians were repulsed with a loss of forty killed and twenty prisoners, who were immediately shot. The Mexican losses are Capt. Common sense and common experience in either case answer no. Somebody has "put up" for all this. Who? It has not been the people, who are the ones interested. No subscription by irrigators to defray the expenses of the campaign has been collected or proposed. No philan-collected or proposed. No philan-collect

collected or proposed. No philan thropist has stepped forth and said: "Ifrigation must and shall be maintained. It will cost money to set it on an immovable foundation. Here's \$500,000 for it." None of that. The money has flowed as free as the water should be, but there was no purse to father it. The golden spring was hidden.

The provisions of a measure are sometimes less palpably significant than the manner of its presentation. It was the longest-headed of the Trojans who said: "I fear the Greeks even when they offer presents."

There is nothing in the world which a for does so adere as a good fat chicken. It is as much a boon to him as irrigation is to the farmers of Southern California. But if you dress your fattest chicken and put it on that fox's front door-step, he will never touch it. There may be a trap under it and there may not; but at all events he cannot understand why you should furnish him with chicken, and not a feather will he nose. It is good chicken, but—porque?

this good chicken, but—porque?

The measures so suddenly sprung upon the public as the sure and instant panaces for all irrigation distempera, seemed at first sight very nice, plump chicken. But why this sudden contribution from the gubernatorial hen-roost?

As the public has walked around those amendments and sniffed them, it has seemed now and then to catch the glint of cold steel; and it has been edging off farther and farther from the tempting bait. The up-country papers, situated at the political center, ware quick to take the alarm; and, at every new inspection of Stoneman's amendments, they have found some new flaw which appeared to have a monopolistic squint. The Governor's proposition to officially decapitate the Suprems Court because of one decision, was such an unheard-of, high-handed and revolutionary scheme as to bring all thoughtful men up with a round turn. A number of interviews, printed classwhere this morning, give the forceful opinions of some of the most prominent lawyers in Southern California, of both parties, upon this proposition, and also upon the special assision itself. These views are fully in harmony with the position taken by the Trans, that measures so queserly promoted, and proposed to be railroaded through with such suspicious haste, will bear watching. In a matter wherein the total welfare of Southern California is throved, it will be well to make haste slowly, and to look before we leap. Ordinary horse-seese commends this.

Ordinary horse-sense commends this proposition, without the necessity of charging a conspiracy. It there be one, let us find it out; if there be none, let us find it out; if there be none, let us know that.

The Chronicle and Bulletin charge that the special seasion is a deal to hand over to Haggin & Carr and their associates a practical monopoly of the water of California. They charge that these mens or their agents have secretly gobbled vast water rights at the fountain head, and that if the amendments pass. Southern California will be at the mercy of a monopoly than times more odious than the Bouthern Pacific Bellroad." These are times more odious than the Bouthern Pacific Bellroad." An indignation meeting was held by the citizens, at which H. Hamilton and Dr. O. P. Chubb were appointed a committee to interview the Supervisors. It was found upon comparing notes that the Deputy Assessor had been instructed to make a 20 per cont. raise to meet the requirements of the State Board, and had failed to do so. It also turned out that of the 100 who had received cards, 29 were on second grade land, and therefore not under the rule. The other 71 will have to be raised 20 per cent.

American Fruit Evaporator!

Every fruit grower needs an evaporator. The fruit ammusity wasted on the Pasifict would, tightly cured, go far toward supplying this want. The evaporator is the grobrake upon a down grade of prices. The AMERICAN is pre-eminently the fruit-re machine. Its sizes grade from domestic to manufacturing wants. It makes the higuality of work with ordinary care in handling. There is no need of making anything Though we approve a slight use of sulphur, the AMERICAN is specially adapted for hig grade in unblackhed work. It places fresh cut fruit first in highest and dryest heal; out surfaces at once and keeps them dry, thereby setting and making permanent the anal also, thereby, as in brolling steaks, securing the highest quality in product. We our experience in evaporating at the disposal of our customers. In some cases this proous service is of more value than prices paid us for evaporators. ROUGH ON JONES.

Found in the Flour. The examination of Edward W. Jones the old man of La Dow, arrested July 10 on the charge of having poisoned five persons, including his only son and his daughter-in-law, went on all day before Justice Ranney, yesterday, with olosed doors. The old man sat impassive through the proceedings. His white hair has recently been clipped close, and the appearance of his naturally repellant face

has recently been elipped close, and the appearance of his naturally repellant face is not improved thereby.

The Thurs has already published the story of the supposed orims so fully that a brief synopsis of yesterday's evidence will suffice.

Edward Jones, son of the defendant, was the first witness. He told of the trip to San Gabriel calon; the return on Thursday, July 8; the hastily-cooked meal, of which flour gravy was one article; How all but the old man and the baby were taken sick; how the doctor told them they had been poisoned; how deathly sick, they were, how the old man emptied the vomit which he had saved to have analyzed, and all the suspicious details, which the Turze has already published. He testified as to the box of "rough on rate," which had been stored in the old man didn't eat any of the gravy, though smally a very hearty eater. Nothing new was developed on the cross-examination, which was lengthy and ran ont the forencom.

In the afternoon the cross-eximination of Ed. Jones was required: "There was strychnine in the house, but I don't know where it was kept. Some rough on rate I bought a year before was misplaced, and I got some more, of which we need a little, after which the farst box was found suck, of which 20 ponnds had probably been need, we had shout two weeks.
